RECEIVE DEDICATED SUPPORT TO ESTABLISH A RIDE-SHARING SCHEME IN YOUR COUNTRY.

The recent shockwaves caused by reductions in institutional funding are not an unavoidable fate- they are a call to action. Now is the time to actively transform our practices.

Fleet Forum is providing hands-on technical support and expertise to organisations that are willing to implement a ride-sharing scheme in their areas of operation.

Drawing on our past and ongoing ride-sharing successes, we aim to support field practitioners who are ready to join forces for change, begin generating savings, and truly put their sustainability commitments into practice.

WHAT WILL FLEET FORUM PROVIDE?

Remote support (up to 10 working days)

Technical guidance

Tool box

Lessons learnt from other ride-sharing projects

Change management tactics

Performance monitoring tools
